monthly.

New Yorkers are interested in a treest lease just secured on the Gold Bo Consolidated Mines Company on bloc and 2 of its Gold Hill property, the Workers.

by incondiaries. The fire penetrated the tunnel, destroying some finhers. The mine was lately consolidated with the Little Genat and is owned by the Genat Et lipse Consolidated Company.

The Gelden Eagle Mining Company, owning a well located group of claims in Burns Guich, Silverton, has let a contract for drifting on the Golden Eagle Vein. During the summer an 800 foot drift was run on the Independence vein to a point of intersection with the Golden Eagle. Four good ore bedies were cut, but no ore was taken out except what was necessary in drifting. At the intersection of the veins the ore is of excellent grade.

The Allerton Mining Company has contracted for extending a caseout tunnel sof feet on its property in Phespect Guich, Silverton. The tunnel is already 800 feet in. The extension will cut gre bodies exposed in upper workings.

The Bryant-Alkire lease on the Seven-Thirty mine on Sherman meantain, Georgetown, is in an 12 to 24 inch ore body assaying 800 to 700 ounces in silver a ton and 13 to 20 per cent, lead. The discovery was made where the Seven-Thirty vain intersect the Hismark. Work was proceduted through Hercules tunnel. A 160 foot cross-section, It has since been agrended 200 feet. For the entire distance a 5 to 10 inch streak of ore assaying 350 to 475 ounces in silver a ton was followed. In places the streak widened to 24 inches. The feesen control a block 300 feet in length, with 800 feet or virgin territory overhaint to the end inc. When stoping will begin. All previous development has been along the south trend of the vein system. The prepant at rike is press that the north territory contains rich and large ore bodies. The mine has produced to date 38,00,000.

A body of solid smelting ore, has been sieghteen to twenty-four inches wide. A twenty ton shipment has just returned the south trend of the vein system. The veins is eighteen to twenty-four inches wide. A twenty ton shipment has just returned to the anountered in sinking a winze from the fourth level in the Santiago mine in East Argent
